Voluntary Product Accessibility Template

Date: October 29, 2007
Name of Product: Safe Access (End-user screens)
Product Version: 5.0
Contact for more Information: StillSecure
100 Superior Plaza Way #200
Superior, CO 80027
(303) 381-3800

Summary Table

Summary Table Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
Section 1194.21 Software Applications and Operating Systems	Supports	The operating system supports the applicable sections of 1194.21
Section 1194.22 Web-based Internet Information and Applications	Partially Supports	The web-based application and console partially supports the applicable sections of 1194.22.

Summary Table Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
Section 1194.23 Telecommunications Products	Not Applicable	Not Applicable
Section 1194.24 Video and Multi-media Products	Not Applicable	Not Applicable
Section 1194.25 Self-Contained, Closed Products	Not Applicable	Not Applicable
Section 1194.26 Desktop and Portable Computers	Not Applicable	Not Applicable
Section 1194.31 Functional Performance Criteria	Supports	
Section 1194.41 Information, Documentation and Support	Supports	

Section 1194.21 Software Applications and Operating Systems – Detail

Note: Section 1194.21 applies to the operating system, and section 1194.22 applies to the web-based applications and console.

Section 1194.21 Software Applications and Operating Systems – Detail Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Supports	The operating system is entirely text-based.
(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Not Applicable	
(c) A well-defined on-screen indication of the	Supports

Criteria	Supporting Features	Remarks and Explanations
current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.		
(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.	Not Applicable	
(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Not Applicable	The operating system does not utilize images.
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Supports	
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Supports	

Section 1194.21 Software Applications and Operating Systems – Detail Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Not Applicable	The operating system does not utilize animation.
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Not Applicable	The operating system does not utilize color coding to convey information.
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Not Applicable	The operating system does not have color and contrast settings.
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Supports	Some rarely used utilities utilize blinking or flashing.
(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supports	

Section 1194.22 Web-based Internet information and applications – Detail

Section 1194.22 Web-based Internet information and applications - Detail Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Does not Support	Will be included in a future release.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not Applicable	Multimedia presentations are not utilized in Safe Access.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Not Applicable	Color is not used to convey information.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Does not Support	Will be supported in a future release.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable	Image maps are not utilized in Safe Access.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not Applicable	Image maps are not utilized in Safe Access.
(g) Row and column headers shall be	Not Applicable

Criteria	Supporting Features	Remarks and Explanations
identified for data tables.		
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Not Applicable	
(i) Frames shall be titled with text that facilitates frame identification and navigation	Does not Support	Frames will be removed in a future release.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supports	
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Not Applicable	
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Does not Support	Most likely will be supported in a future release.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret	Does not Support	Most likely will be supported in a future release.

Section 1194.22 Web-based Internet information and applications - Detail Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).		
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supports	
(o) A method shall be provided that permits users to skip repetitive navigation links.	Not Applicable	
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable	
Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.		

Section 1194.31 Functional Performance Criteria

Section 1194.31 Functional Performance Criteria Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for assistive technology used by people who are blind or visually impaired shall be provided.	Supported with compatible assistive technology (AT)	
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for assistive technology used by people who are visually impaired shall be provided.	Supports	Common browsers supported including IE7 and Firefox.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for assistive technology used by people who are deaf or hard of hearing shall be provided.	Supports	Hearing is not required for any operation or function within Safe Access.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or	Not Applicable	Audio information is not required for any operation or function within Safe Access.

Section 1194.31 Functional Performance Criteria Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
support for assistive hearing devices shall be provided.		
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for assistive technology used by people with disabilities shall be provided.	Not Applicable	Speech is not required for any operation or function within Safe Access.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supported with compatible assistive technology (AT)	Fine motor control or simultaneous actions are not required for any operation or function within Safe Access.

Section 1194.41 Information, Documentation and Support

Section 1194.41 Information, Documentation and Support Voluntary Product Accessibility Template		
Criteria	Supporting Features	Remarks and Explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.	Supports	Documentation is available in PDF and HTML formats from Help links within the product. Both of these formats allow the user to zoom in or increase the font size.
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supports	Available on request.
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Supports	Support is provided via phone call and via email.
